

# Extension Lead Hooks

The extension lead hooks are an essential part of site safety, manufactured from non conductive, insulating polypropylene in highly visible safety yellow.

The large anchor head accommodates various sized attachment points such as pipes, doors, rails, scaffolding etc. Allowing leads, cables and hoses to be suspended above floor level to eliminate trip hazards or damage to equipment.

The hooks can be used independently or in conjunction with other site safety equipment such as lead stands or cable covers.

## KEY FEATURES

- Reduces risk of injury
- Highly visible safety yellow
- Non conductive
- Indoor and outdoor applications

Additional Cable Protection

Made Tough for Australian Conditions
