MAIN SWITCHBOARD RANGE

HB02

400A 415V 3 Phase

The HB02 is designed as a portable, main switchboard for large construction projects, remote camps and major events.

Providing multiple, circuit breaker protection, 415V outlets for cascading distribution boards and 240V RCB/MCB protected outlets.

As site requirements change, the plug and play design and heavy duty steel trolley allows easy movement without the need for an electrician. The integrated RCD on 240V outlets ensures the electrical safety and protection of personnel and equipment.

Manufactured in Australia, these boards are available in fiberglass, metal or stainless steel, designed for outdoor use meeting IP66 standards (dustproof, jets of water) and come with a five-year pro rata warranty.

KEY FEATURES

- Fitted standard with terminals for connection, with the option of Powerlock style inlets
- Hooks on trolley for crane lifting points
- Outer door is Perspex to allow easy viewing of circuit breakers
- The circuit breakers mounted to an inner door with pad lockable windows for added safety
- The resetting of circuit breakers is easily done without mechanically having to remove covers, yet still offers easy locking out of circuit breakers
- 5 year pro rata warranty
- All boards are tested by Australian qualified electricians

SPECIFICATIONS

Inlet	Terminals for connection direct to an Adjustable 160-400A MCB
Cascade outlets	3 x 63A 415V 5 pin CEE Form IP67 4 x 32A 415V 5 pin CEE Form IP67
Outlets	6 x 15A 240V 3 pin auto switched IP66
MCB	3 x 63A 3 pole MCB 10kA 4 x 32A 3 pole MCB 10kA
RCBO	6 x 16A 2 pole RCBO 6kA 30mA

IP Rating	IP66
Materials	Galvanised trolley with wheels
Dimensions	95kg – 146cm (H) x 100cm (W) x 70cm (D)

IP66

5 YEARS WARRANTY

Covered by Powersafe's five-year pro-rata warranty.
