

RCD DUO™ RANGE

RB4 & RB6 DUO

240V single phase power boards fitted with the RCD DUO

These heavy duty IP66 power boards come fitted with the RCD DUO Earth Safety Device the next generation in earth leakage protection for use on IT, TT and MEN systems

The small industrial range consists of the RB4 and RB6 power boards, these fitted with the RCD Duo earth safety device.

Designed as a plug and play, temporary distribution board for small construction and industrial sites. The use of a braided lead, RCD DUO and lockable window the user can rest assured that the RB range will be compliant on even the most safety conscience mining or construction site.

Manufactured from high impact and corrosion resistant polyethylene, these boards are designed for outdoor use, meeting IP66 standards (dustproof, jets of water) and come with a five year pro rata warranty.

KEY FEATURES

- Braided earth screened lead
- Windows are pad lockable
- All boards are tested by Australian Certified electricians
- Our entire board has been tested to IP66 not just the outlets
- Plug and go design no hardwiring required
- Mounting holes to enable permanent mounting
