

MOUNTABLE RANGE

WMB04

Terminals Ready for Connection

The WMB04 is a top of the range mountable distribution board for generators or workshop walls.

Ideal for generator manufacturers, large workshops and mining sites. With a range of outlet types and innovative safety features, it protects personnel and equipment.

The WMB04 has been designed with the user in mind and allows mounting and connection to be carried out in a matter of minutes not hours. The hinged front door allows quick repair / replacement of parts without having to remove the board from the wall or generator.

Manufactured in Australia by our fully qualified electricians, from high impact polyethylene. These boards are designed for outdoor use, meeting IP66 standards (dustproof, jets of water) and come with a five year pro rata warranty.

KEY FEATURES

- IP66 breather drain allows one way moisture flow and two way airflow to eliminate condensation
- All windows are pad lockable
- All boards are made in Australia by fully qualified electricians
- Entire Board IP66
- Hinged front access panel for easy access to internal wiring
- Plug and go design – no hardwiring required
- Boards are made from UV resistant high impact polyethylene
- Can be customised to specific site requirements
- Optional Emergency stop and under voltage protection and phase indication lights
- Option to upgrade RCBO to 10kA.
- Can be fitted with optional lead of your choice
- Optional Main MCB up to 125A

SPECIFICATIONS

Outlets	3 x 32A 415V 5 pin switched IP66 6 x 15A 240V 3 pin auto switched IP66
MCB	3 x 32A 3 pole MCB 10kA
RCD	2 x 63A 4 pole RCD 30mA (415V outlets)
RCBO	3 x C20A 2 pole RCD/MCB combo 6kA 30mA (240V)

IP Rating	IP66
Materials	UV resistant high impact polyethylene
Dimensions	28kg – 74cm (W) x 74cm (H) x 24cm (D)

Covered by Powersafe's five-year pro-rata warranty.
